

- ✔

Digital Nomads Dev is a provider of fresh & innovative software solutions for businesses - from SMEs to large corporations
- ✔

We are passionately dedicated to customer satisfaction; we believe this to be essential in building successful long term partnerships
- ✔

We aim to differentiate ourselves by delivering high quality tailored solutions, with a keen focus on attention to detail

DIGITAL NOMADS HUB

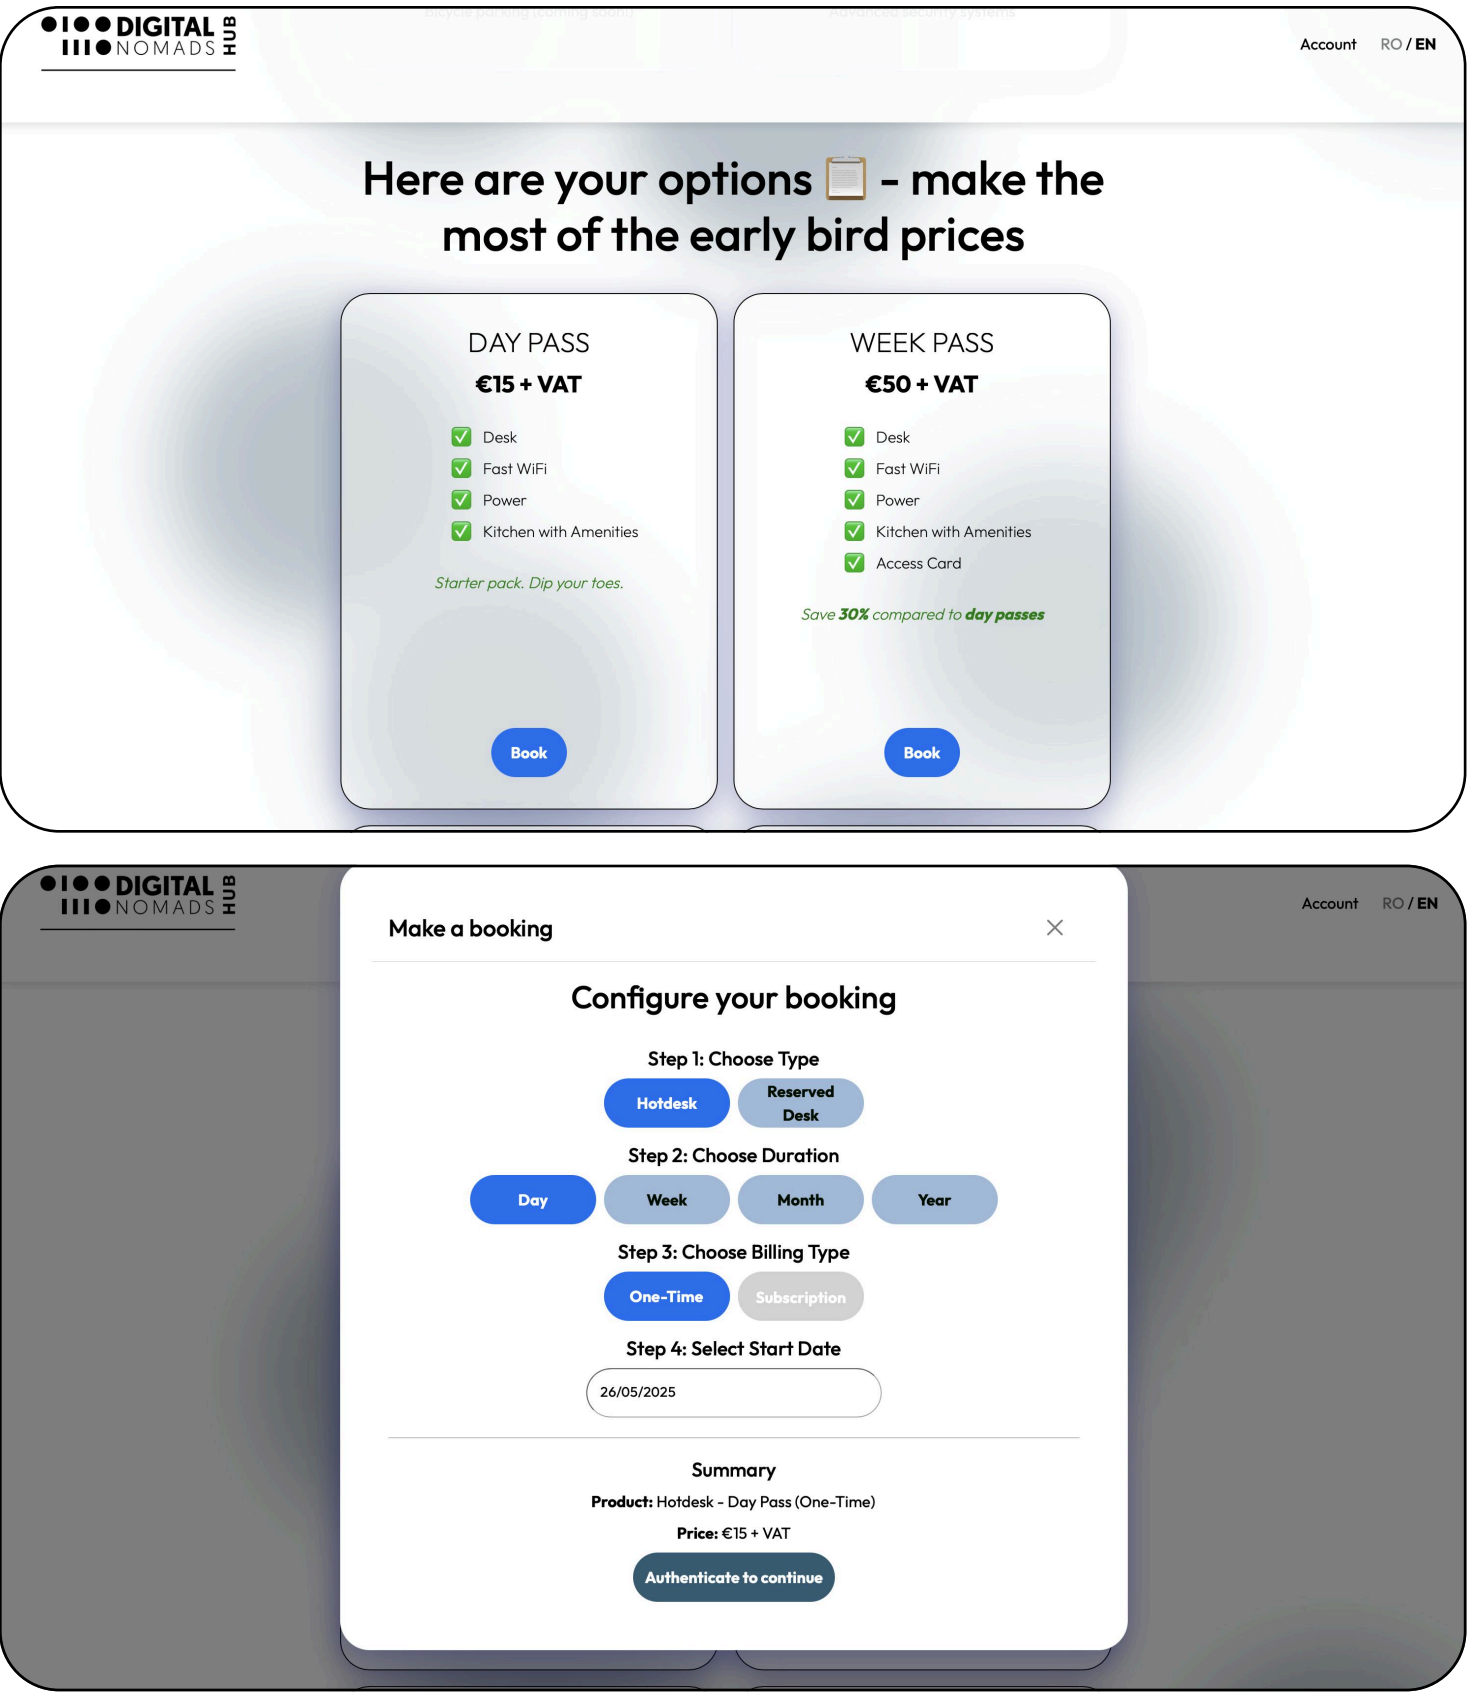

Under the umbrella of Digital Nomads we operate a co-working space we call the Hub for which we have built a website and booking system. The clients can use this system to customize their subscription and book a visit to our Hub via an intuitive interface designed for ease of use.

KEY FEATURES

- 🔍 SEO friendly company presentation website
- 🔍 Hub visit booking system to customise subscriptions and visits
- 🔍 Stripe integration for payments
- 🔍 Admin panel for client management
- 🔍 Mobile friendly - mobile first design concept has been applied in the creation of this website
- 🔍 Implemented using modern web frameworks (NextJS, Bootstrap), hosted on AWS (Amazon Web Services)

URL

<https://hub.digital-nomads.dev>

STEFI FENS

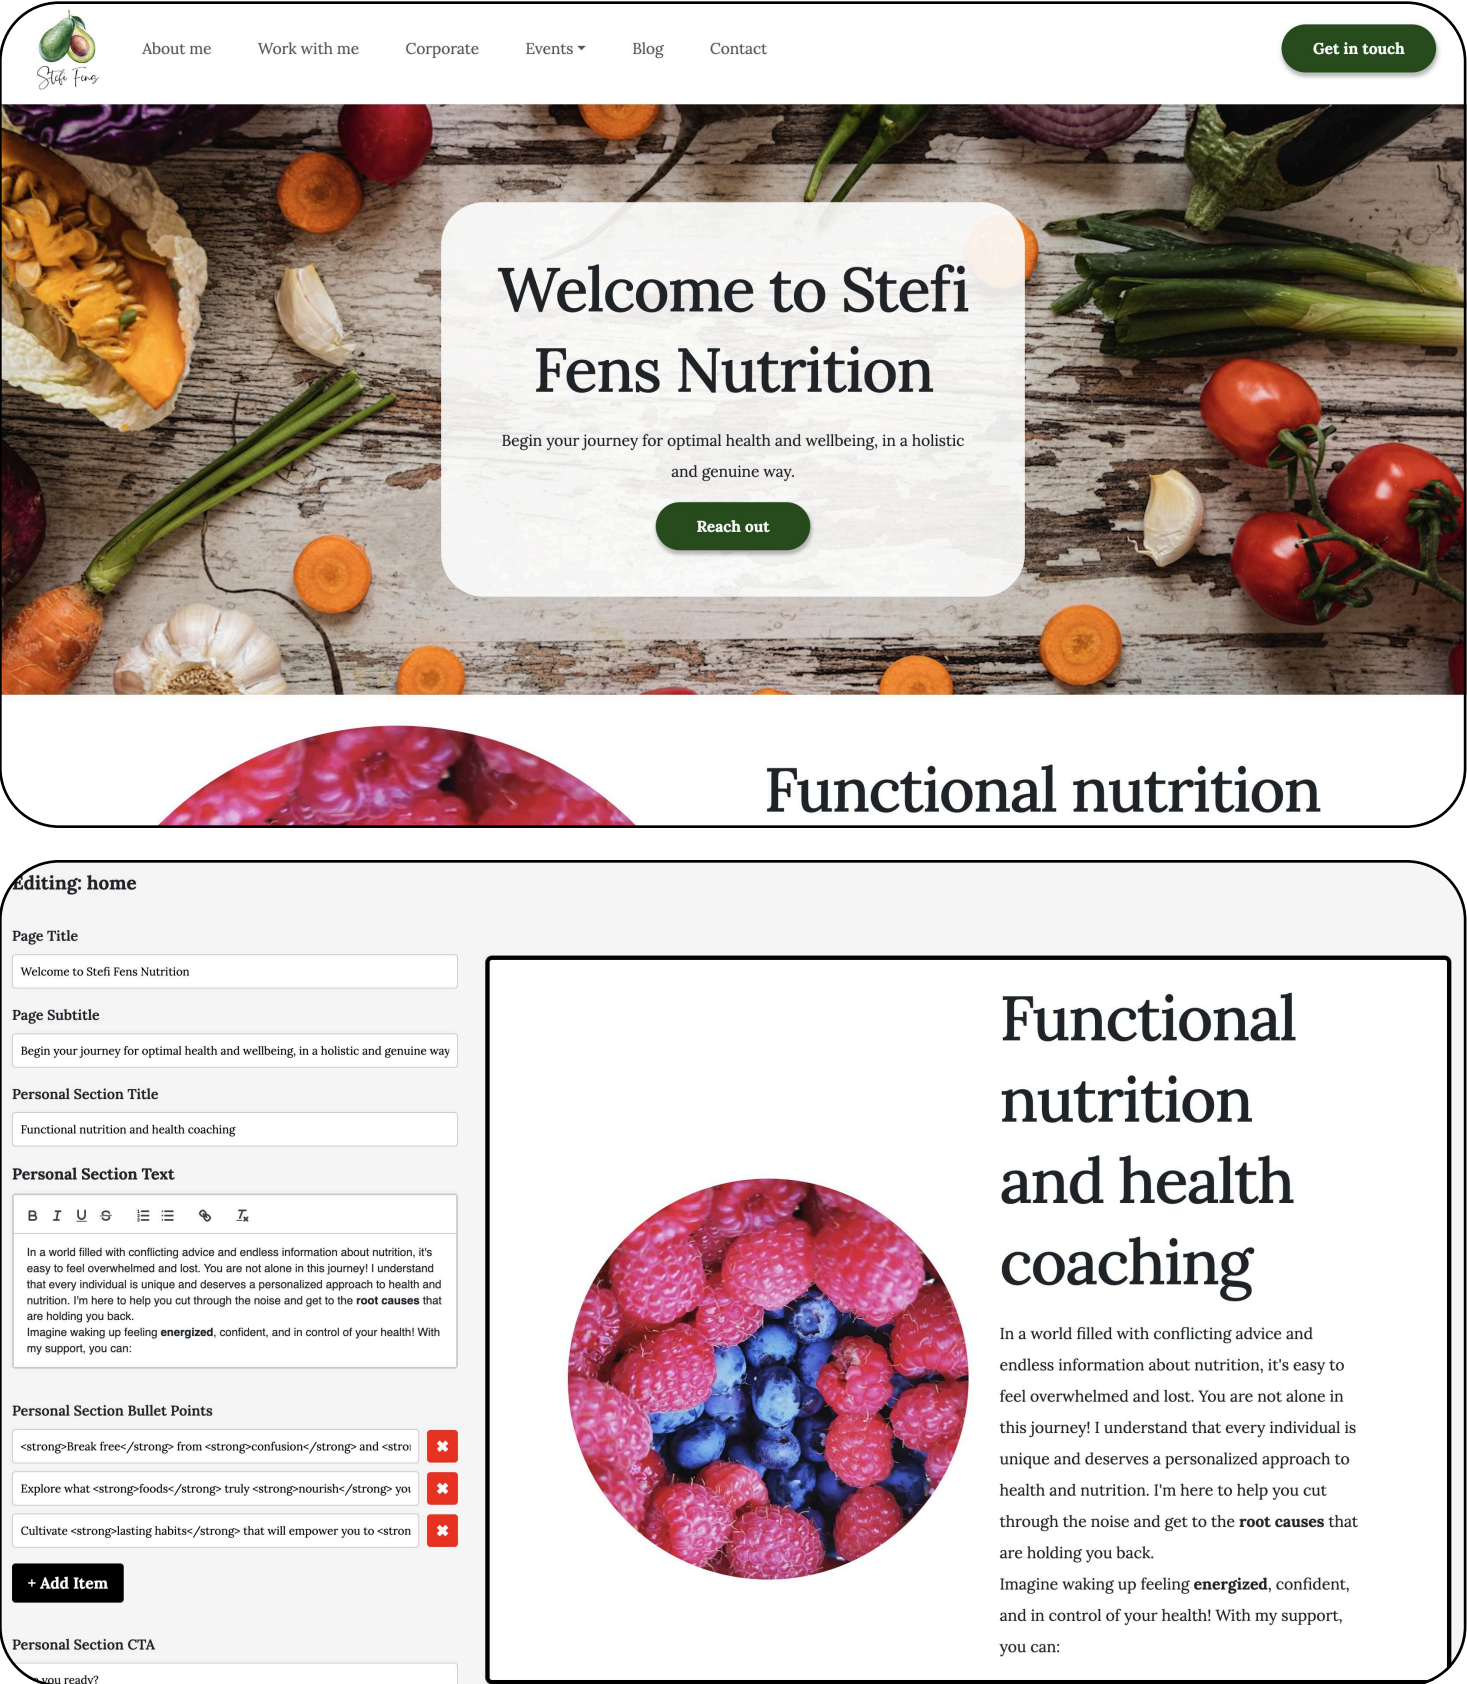

Stefi is a talented young professional, passionate about helping people live better through customised nutrition plans and a holistic approach to wellbeing. She has tasked us with building a personal showcase website that allows her to better manage her relationship with her clients.

KEY FEATURES

- 🔍 Customisable personal showcase website
- 🔍 SEO friendly
- 🔍 Events, Blog, Shop (coming soon)
- 🔍 Mobile friendly
- 🔍 CMS ready - allows the owner to edit text, images, content via a friendly and authentication-enabled interface
- 🔍 Implemented using modern web frameworks (NextJS, Bootstrap), hosted on AWS (Amazon Web Services)

URL

<https://stefifens.com>

# GETRA

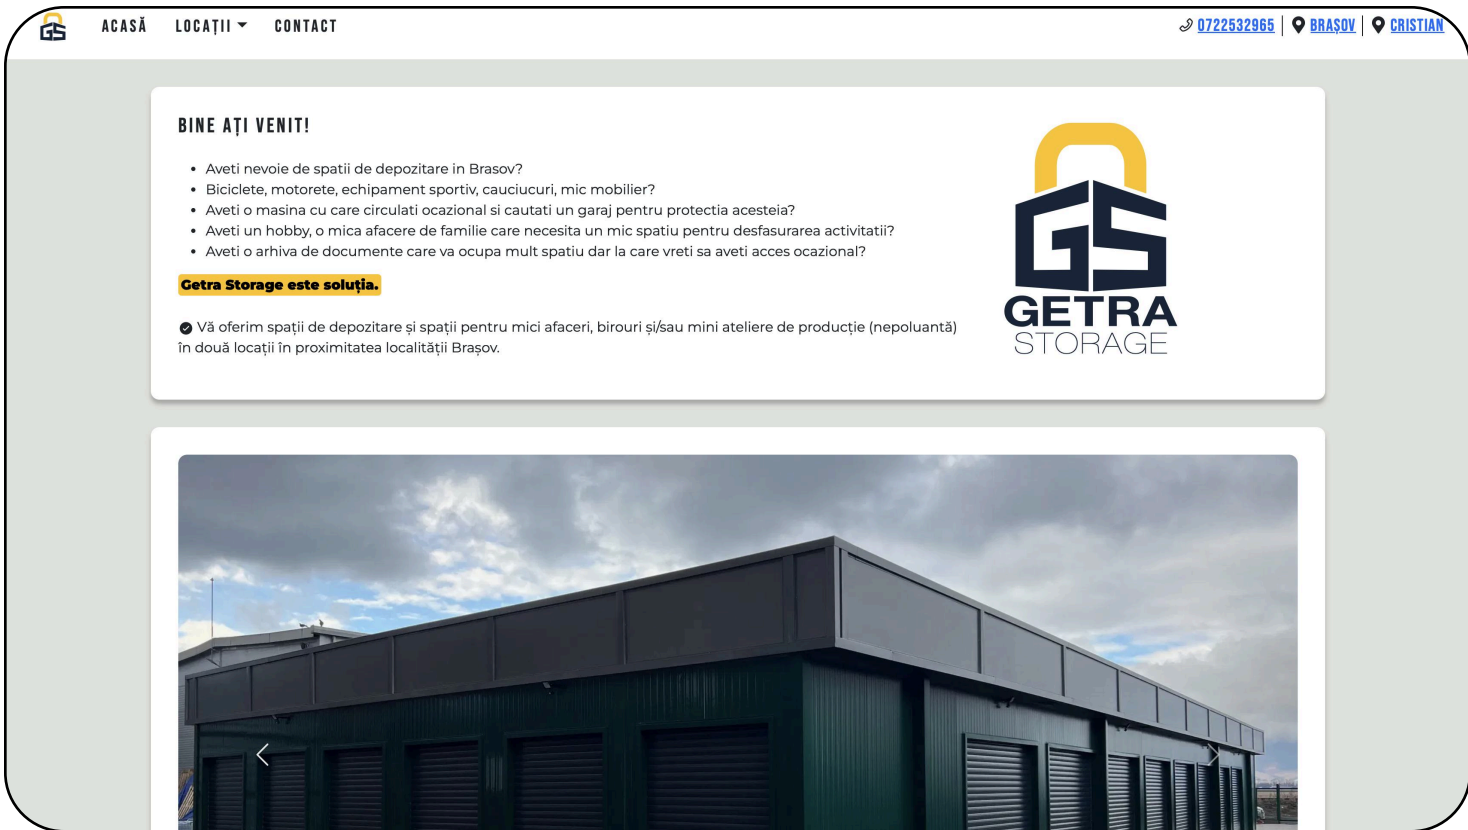

Getra is a local provider of storage solutions. Rapidly expanding with new locations in development, they have contracted us to build a presentation website as well as fully automated management and self service solutions.

## KEY FEATURES

- 🔍 SEO friendly company presentation website
- 🔍 Authentication-protected billing dashboard for automated invoice generation
- 🔍 Self service booking solution with vertical integration from web to storage unit lock
- 🔍 Lightbox integration which allows the end user to consult floor plans in more detail
- 🔍 Image gallery integration, which enables facile item exploration
- 🔍 Implemented using modern web frameworks (NextJS, Bootstrap), hosted on AWS (Amazon Web Services).
